The MagicLight™ and MagicHouseLight™ are user configurable series of products, providing environmentally friendly quality solutions for general purpose ParallelView™ illumination. The product line configurations include an intelligent series with built in self-diagnostics, allowing the product to adjust illumination based on ambient environment, and as result, achieving superior levels of efficiency and longevity. The products contribute to safety of the environment by visually indicating when the ambient temperature surrounding the product is outside a predefined safety limits. A network configuration operating as a system of MagicLights™ MagicHouseLights™ contribute to improvements of community safety by providing remote diagnostics of the environment, and then via visual effects indicating conditions potentially affecting the safety.

FIG. 1

Kit "MLK-1": 3 Single Color MagicLights™ with RF Remote Control

FIG. 2

Kit "MLK-2": 2 Single Color MagicLights™ with RF Remote, 1 MagicLight™ RGB with RF Remote

FIG. 3
Kit "MLK-3": 2 Single Color MagicLights™, 1 Master Control MagicLight™

FIG. 4
Kit "MLK-4": 1 Single RGB MagicLight™ with RF Remote

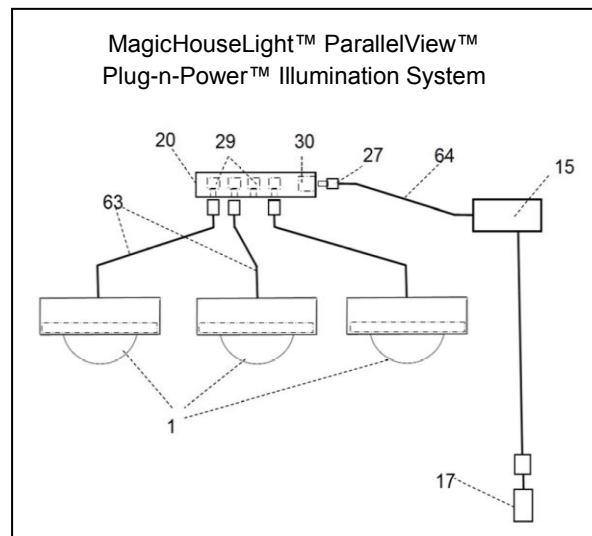

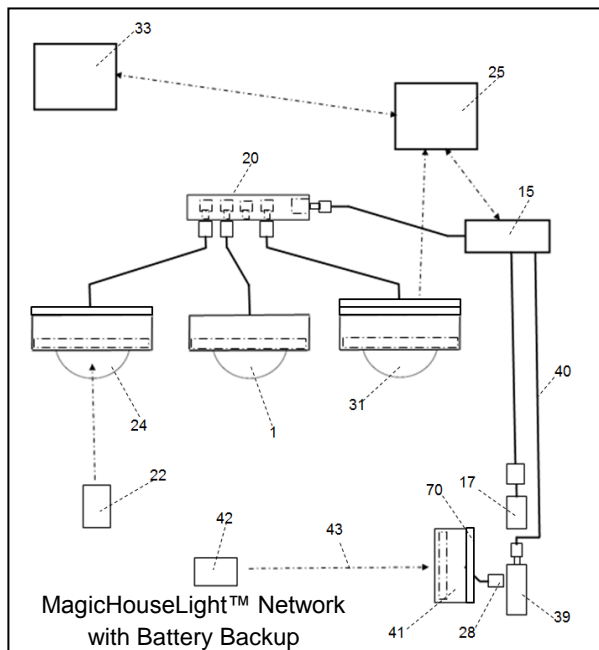

FIG. 5: MagicHouseLight™ (illustrations from the Patents)
